DETAILED ACTION

Response to Amendment

The amendment filed on August 17, 2005 is sufficient to overcome the prior art reference.

Drawings

The replacement drawings were received on August 17, 2005. These drawings are approved.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose a knuckle boom apparatus comprising a hydraulic reach cylinder mounted above said hoist boom, a second stick cylinder mounted above said hoist boom or a third stick cylinder mounted above said hoist boom in combination with the rest of the claimed limitations as set forth in claims 1, 2, 5, 7 and 8.

The prior art reference, Liu discloses a knuckle boom apparatus comprising a machine base (1), a hoist boom (6) having a proximal end and a distal end, a stick boom (7) having a proximal end and a distal end; a hoist cylinder (10) at least one hydraulic stick cylinder (11) and a reach cylinder (16) both mounted below the stick boom and a circuit (figs. 2, 4-6) for supplying hydraulic fluid to the cylinders. Liu is silent to any reach cylinder mounted above the hoist boom or any additional stick cylinders mounted above the hoist boom. Accordingly, Liu fails to anticipate or render obvious the claimed invention as set forth in claims 1, 2, 5, 7 and 8.

Art Unit: 3725

Neither the prior art of record nor any combination thereof discloses the claimed invention as set forth in claims 1, 2, 5, 7 and 8. Accordingly claims 1-8 are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
